

OUR CURRICULUM

Viracocha Little Learners International Pre-school & Activity Centre follows a modern digital curriculum based on the **British Early Years Foundation Stage (EYFS)** integrated with **India's National Educational Policy (NEP)**.

Our pedagogy is centered around the **A.B.C.D model** which stands for Active Learning, Building Knowledge, Critical Thinking, and Diverse Learning Styles. This approach is tailored to fulfill the aspirations and expectations of parents for their children's educational achievements.

Our fully digitized curriculum is available 24/7 and includes specialized programs such as Super Phonics, Writo, Minimax, Bonjour, and Kids Yoga, focusing on early literacy, handwriting development, cognitive enhancement, and physical well-being.

The Augmented Curriculum is designed to cater to the expectations and visions of parents for their children.

VISION

To be a leading international preschool that fosters curiosity, creativity, and compassion in young learners, preparing them to thrive as confident citizens of our interconnected world.

MISSION

At Viracocha Little Learners, we provide a culturally diverse early education program that integrates international perspectives with play-based learning, empowering children to develop academically, socially, and emotionally while embracing both their heritage and global citizenship.
